USPA NEWS - Imran Khan talks to media team and lawyers in Adiala Jail!!!

The orderly government is constantly running away from the establishment of the Judicial Commission because they know that the May 9 incident was organized by the establishment itself, the establishment itself set fire to the CCTV footage and made it disappear. I was kidnapped from the court because they knew the reaction and they wanted to fulfil their goal by playing with the emotions of the people.

A peaceful protest was turned into a false flag by involving their servants. Thousands of people, including our leadership and workers, were kidnapped and tortured under the guise of May 9. The PTI was forcibly removed from the people by inventing the tradition of kidnapping for statement. 16 of our people were martyred and 4 people were disabled. All the atrocities were done to us and cases were filed against us. The entire drama of May 9 was created to crush PTI so that people would be afraid and leave PTI.

The final straw of the May 9 narrative was in the February 8 elections when PTI made a clean sweep despite all the restrictions. The reason for postponing the elections was to spread false propaganda to make the people distrust the PTI, but it failed in this. November 26 was also done with the same aim in mind, to create fear and panic by shooting at unarmed peaceful protesters and to prevent the people from raising their voices. On November 26, our call was for the restoration of democratic values ??in the country, but by opening fire on it, this government and the establishment stained their hands with the blood of the people. November 26 was the second attempt to crush the PTI.

The puppet government has completely taken away the basic human rights of the people by striking blows at democracy. The PECA Amendment Act is a link in this chain. First, the independent media was strangled, Arshad Sharif was murdered, journalists were kidnapped and tortured, and restrictions were imposed on social media. Now the Form 47 Assembly has passed a black law to curb freedom of expression. Amendments have been made to the PECA laws to suppress political differences.

The more it is condemned, the less it can be. Democracy cannot flourish without an independent judiciary, the rule of law, and freedom of expression. This fake assembly has done nothing but pass laws that attack democracy, whether it is the approval of the 26th Constitutional Amendment or the PECA Amendment Act. The purpose of the 26th Constitutional Amendment was the extension of the Chief of Army Staff and they feared that if the judiciary became independent, election fraud would come to light. The independence of the judiciary has been taken away for their personal gains. Let us prepare to observe Black Day across the country on February 8. On this day,

the people's mandate was snatched away and the memories of 1971 were revived. People of Khyber Pakhtunkhwa and North Punjab should come together in Swabi and protest. People from other areas should hold protests in their respective cities. Overseas Pakistanis all over the world should also raise their voices on this day.

I once again demand from overseas Pakistanis to continue boycotting remittances. This government has done nothing but violate democratic values. Sending remittances to them is tantamount to strengthening the hands of those who are strangling your neck.

We will contact all political parties in Pakistan to restore democracy. I instruct my party to intensify contacts with other parties for this purpose so that the people can get rid of this dictatorship imposed under the guise of democracy as soon as possible.

Ali Amin Gandapur is under a lot of pressure as the Chief Minister of governance, so we have decided that Junaid Akbar Khan, our long-time colleague and worker, should be elected as the President of Tehreek-e-Insaf Khyber Pakhtunkhwa and organizational matters should be handed over to him.
